SUMMARY PROFILE

Seeking an entry-level position in Information Technology, Help Desk Support, or Data Analytics where I can apply my experience in data processing, research, system development, and technical support. Motivated to learn, take on new challenges, and contribute to organizational success while continuously developing my professional skills.

WORK EXPERIENCE

Data Processing and Research Intern

Oct 2025 – Feb 2026

Orchestra Communications

- Conducted comprehensive web-based data research, resulting in accurate and verified datasets that enhanced internal business operations.
- Organized and maintained structured datasets using Google Sheets and Microsoft Excel, improving data accessibility and reporting efficiency.
- Performed extensive data cleaning and validation, ensuring over 95% accuracy and consistency of collected information.
- Ensured data accuracy by reviewing and validating information before submission.

Data Entry Associate

Jan 2020 – Jul 2020

International Data Conversion Solutions Inc. (IDCSI)

- Entered and verified large volumes of numeric and text data with 99% accuracy, ensuring high data integrity across projects.
- Maintained orderly digital documentation, optimizing data management and supporting efficient record tracking.
- Utilized Microsoft Excel and Google Sheets for effective data input and organization, contributing to streamlined processes.

Sales Associate

Oct 2018 – Apr 2019

AKV Connect – Juan San Miguel Building

- Assisted customers with product inquiries and purchase transactions, leading to increased customer satisfaction rates.
- Maintained accurate sales records and monitored product inventory, contributing to operational efficiency.
- Maintained product knowledge to answer customer questions and recommend suitable items.

Fryman

Feb 2017 – Jul 2018

Jollibee Foods Corporation

- Prepared food orders while upholding quality, safety, and operational standards in a fast-paced environment.
- Collaborated effectively with team members to achieve timely service delivery, enhancing overall customer experience.
- Maintained cleanliness and organization in accordance with food safety protocols.

ACADEMIC PROJECTS

Smart Lock Security System Using RFID (Intellock)

Datamex College of Saint Adeline Parañaque

Jan 2026 –

May 2026

- Developed an RFID-based smart lock system to enhance access control, increasing security for end-users.
- Programmed micro-controller to accurately detect and verify authorized RFID tags, improving system reliability.
- Implemented automated locking mechanisms, enhancing user convenience and operational efficiency.

ATM Simulation System – C#

Jan 2024 – May 2024

Datamex College of Saint Adeline Parañaque

- Created a desktop-based ATM simulation application using C#, integrating core banking functionalities.
- Implemented features including balance inquiry and PIN authentication, ensuring robust system usability.
- Conducted thorough system testing and debugging, resulting in a stable and reliable application.

School Scheduling System – Java

Aug 2023 – Dec 2023

Datamex College of Saint Adeline Parañaque

- Developed a Java-based scheduling system facilitating the management of class schedules seamlessly.
- Implemented features for adding, modifying, and deleting course schedules, improving user flexibility and accessibility.
- Utilized data structures effectively to minimize scheduling conflicts, optimizing overall efficiency.

School Inventory Management System – C#

Jan 2025 – May 2025

Datamex College of Saint Adeline Parañaque

- Designed a desktop-based inventory management system for tracking school equipment and supplies.
- Implemented features for item tracking, stock monitoring, and inventory reporting.
- Developed a role-based login system for administrators and staff users.

EDUCATION

Datamex College of Saint Adeline Parañaque

Jan 2023 - Jun 2026

Bachelor of Science in Information Technology

Filipino War Veterans Foundation Inc (Vocational)

Jan 2016 - Jun 2016

Computer System Servicing NCII

ORGANIZATIONAL EXPERIENCE

Orkestra Communications

Oct 2025 - Feb 2026

Data Research & Lead Generation

- Assigned as a Team Leader for one month, coordinating tasks and monitoring progress of team members during data research activities.
- Ensured team coordination and workflow efficiency by delegating tasks and reviewing collected data for accuracy.
